Pain points

- 1 Too many CVs to review**
- 2 Identifying the right talent is a challenge**
- 3 Hiring takes time & effort**
- 4 The hiring process can be expensive**
- 5 Management lacks confidence in the hiring process**
- 6 Human error - biases, subjectivity & miscommunication**

Solution we offer

AI CV Screening

VEZPR's AI algorithms analyze profiles and resumes to identify top candidates, cutting manual review time.

Automated Workflows

Set up seamless workflows before hiring begins and effortlessly communicate with candidates at every stage of the process.

Video Interviews & Testing

Simplify hiring with pre-recorded interviews and custom assessments featuring automated scoring and anti-cheating tools.

Internal Reviewing & Sorting

Collaborate with your team to review candidates and share feedback through VEZPR's assessments for full transparency.

Data Analytics & Reporting

VEZPR's analytics help optimize hiring daily, with easy reporting tools to share insights seamlessly.

Our value proposition

We streamline your hiring process to help you secure top talent while minimizing costs, saving valuable management time, optimizing resource allocation, and enhancing overall hiring quality.

Our goal

To reduce human error and ensure a seamless recruitment experience.

How did our clients benefit

Muve (UK)

Expanding into Sri Lanka, the team at Muve required 100+ employees. VEZPR was able to deliver a solution by **cutting down 85% of the time in hiring** by processing more than 3,800 applications within 6 months!

Legacy Health (US)

Wanted to explore a platform that brings more transparency before meeting people in person. It was made mandatory for anyone applying via pre-recorded video for open opportunities. The team has processed more than 2,800 applications and **has saved 80% of time in their hiring process!**

Varna Limited (Manufacturing)

Required to reduce the number of potential candidates and only review applicants who matched their requirements. After implementing VEZPR the team spent less time shortlisting the ideal candidates. During the first 4 months, Varna was able to screen more than 1,800 applications by **reducing 70% of the time spent!**

Improve your performance with VEZPR
